Guidance

Interpretations

1. References to Articles in this module are references to Articles in the Regulatory Law 2004 unless stated otherwise.

The Regulatory Law 2004 and the Markets Law 2012

2. The Regulatory Law establishes a principle based framework for the licensing and supervision of Authorised Market Institutions and for taking regulatory action against those licensed institutions. This framework is supplemented by some supervisory powers and other requirements in relation to Authorised Market Institutions in the Markets Law 2012. The Laws provide for the creation of Rules in relation to these activities. This module contains those Rules.
3. The Markets Law 2012 further establishes a framework in relation to how an Official List of Securities is administered by the Listing Authority.

1.2 Financial Services, ancillary services, official lists of securities and Authorised Market Institutions

Guidance

Financial Services

1. The GEN module prescribes the Financial Services which may be carried on by an Authorised Firm or Authorised Market Institution.

Ancillary Services

2. Article 44(1) of the Regulatory Law 2004 prohibits a Person from carrying on Ancillary Services in or from the DIFC unless they are carried on by an Ancillary Services Provider whose registration allows it to do so.

Authorised Market Institutions and regulatory processes

3. In addition to this module, the RPP Sourcebook sets out some of the regulatory process, in relation to Authorised Market Institutions. The regulatory processes contained here supplement other Rules that relate to Authorised Market Institutions. These are set out in the GEN, RPP, ENF and MKT modules of the Rulebook.
4. The following modules of the Rulebook, in addition to this module, apply to Authorised Market Institutions:

Module	Applicable chapters
General (GEN)	1, 2, 3, 5, 6, 7 and 8
Enforcement (ENF)	All chapters
Islamic Finance Rules (IFR)	2, 3 and 4

The AMI module

5. Chapters 2 to 5 and chapter 7 set out the requirements for a new Licence application and also an application by an existing Authorised Market Institution to change the scope of its existing Licence.
6. Chapters 8, 9, 10 and 11 contain Rules relating to the ongoing obligations and supervision of Authorised Market Institutions and are in addition to those set out in SUP and include a series of notification requirements, anti money laundering provisions and supervisory directions that may be made by the DFSA to Authorised Market Institutions under Article 26 of the Markets Law 2012.
7. Chapter 12 refers to ENF which describes the DFSA's enforcement powers under the Regulatory Law and outlines the policy for using these powers. ENF also establishes the framework for the DFSA's decision making process and the giving of notice in relation to enforcement powers.

Change in control

8. Chapter 6 of this module covers the requirements with regard to changes and proposed changes to an Authorised Market Institution's Controllers.

Official lists of securities

9. Chapter 7 contains a specific Licensing Requirement for applicants who wish to maintain an Official List of Securities. Chapter 10 contains some disclosure requirements in respect of listing decisions by an Authorised Market Institution and also some supervisory powers in relation to listings.

2 APPLICATION FOR A LICENCE

2.1 Application

2.1.1 This chapter applies to a Person who intends to carry on either or both of the Financial Services of Operating an Exchange or Operating a Clearing House in or from the DIFC.

2.1.2 A Person who intends to carry on either or both of the Financial Services is referred to in this chapter as an applicant.

2.2 Licence application

2.2.1 An applicant who intends to carry on either or both of the Financial Services of Operating an Exchange or Operating a Clearing House must apply to the DFSA for a Licence in accordance with the Rules in this chapter.

Guidance

1. If a Person intends to carry on a Financial Service which is not:
 - a. Operating an Exchange; or
 - b. Operating a Clearing House;it should apply to the DFSA for a Licence in accordance with the Rules in AUT.
2. If a Person intends to carry on the Financial Service of Operating an Exchange or Operating a Clearing House without having a physical presence in the DIFC, it should apply for a Recognition Notice in accordance with the Rules in REC.

2.2.2 The DFSA will only consider an application for a Licence from an applicant who is a Body Corporate and who is not an Authorised Firm or an applicant to be an Authorised Firm.

2.2.3 A Person applying for a Licence must submit a written application to the DFSA:

- (a) demonstrating how the applicant intends to satisfy the Licensing Requirements and any other applicable requirements; and
- (b) with copies of any relevant agreements or other information in relation to the application.

2.2.4 (1) An applicant will only be authorised to carry on either or both of the Financial Services of Operating an Exchange or Operating a Clearing House if the DFSA is satisfied that the applicant:

- (a) has satisfied or will satisfy the Licensing Requirements in relation to the nature of the Financial Services concerned;

- (b) if applicable, will maintain an Official List of Securities, in a proper and independent manner;
 - (c) is fit and proper; and
 - (d) will conduct and manage its affairs in a sound and prudent manner.
- (2) In making the assessment as to whether an applicant is fit and proper, the DFSA will consider:
- (a) the applicant's connection with its Controllers or any other Person;
 - (b) the Financial Services concerned;
 - (c) any matter which may harm or may have harmed the integrity or the reputation of the DIFC;
 - (d) the activities of the applicant, the associated risks and accumulation of risks, that those activities pose to the DFSA's objectives;
 - (e) the cumulative effect of factors which, if taken individually, may be regarded as insufficient to give reasonable cause to doubt the fitness and propriety of an applicant; and
 - (f) any other relevant matters.

2.2.5 In assessing an application for a Licence, the DFSA may:

- (a) carry out any enquiries which it considers appropriate including enquiries independent of the applicant;
- (b) require the applicant to provide additional information in such form as the DFSA considers appropriate;
- (c) require any information submitted by the applicant to be verified in such manner as the DFSA may specify; and
- (d) take into account any information which the DFSA considers relevant.

- 2.2.6**
- (1) In assessing an application for a Licence, the DFSA may, by means of written notice, indicate the legal form that the applicant must adopt to enable authorisation to be granted.
 - (2) Where the DFSA thinks it appropriate it may treat an application made by one legal form or Person as having been made by the new legal form or Person.

3 APPLICATION TO CHANGE THE SCOPE OF A LICENCE

3.1 Application

3.1.1 This chapter applies to an Authorised Market Institution applying to change the scope of its Licence or, where a condition or restriction has previously been imposed, to have the condition or restriction varied or withdrawn.

3.1.2 An Authorised Market Institution applying to change the scope of its Licence, or to have a condition or restriction varied or withdrawn, must provide the DFSA with written details of the proposed changes including an assessment of how it intends to satisfy the Licensing Requirements in relation to the new Licence scope.

Guidance

Where an Authorised Market Institution applies to change the scope of its Licence, it should provide at least the following information:

- a. particulars of the new Financial Service or varied scope and the date of the proposed commencement of activities;
- b. a revised business plan as appropriate, describing the basis of, and rationale for, the proposed change;
- c. details of the extent to which existing documentation, procedures, systems and controls will be amended to take into account any additional activities, and how the Authorised Market Institution will be able to comply with any additional regulatory requirements including the Licensing Requirements; and
- d. if the Authorised Market Institution is reducing its activities and it has existing Members who may be affected by the cessation of a Financial Service, details of any transitional arrangements.

4 NOT CURRENTLY IN USE

5 WITHDRAWAL OF A LICENCE

5.1 Application

5.1.1 This chapter applies to an Authorised Market Institution.

5.2 Withdrawal of a licence at an Authorised Market Institution's request

- 5.2.1**
- (1) An Authorised Market Institution must continue to carry on every Financial Service it is authorised to conduct under its Licence until its Licence is withdrawn or the DFSA consents in writing.
 - (2) An Authorised Market Institution seeking to have its Licence withdrawn must submit a request in writing stating:
 - (a) the reasons for the request;
 - (b) the date on which it will cease to carry on Financial Services in or from the DIFC;
 - (c) where applicable, how persons with Securities admitted to an Official List of Securities are affected and any alternative arrangements made for the listing and trading of the relevant Securities; and
 - (d) that it has discharged, or will discharge, all obligations owed to its users in respect of whom the Authorised Market Institution has carried on Financial Services in or from the DIFC.

Guidance

1. The DFSA will need to be satisfied when considering requests under Rule 5.2.1, that an Authorised Market Institution has made appropriate arrangements with respect to its existing users (including the receipt of consent where required) and, in particular:
 - a. whether there may be a long period in which the business will be wound down or transferred;
 - b. whether money and other assets belonging to users must be returned to them; and
 - c. whether there is any other matter which the DFSA would reasonably expect to be resolved before granting a request for the withdrawal of a Licence.
2. In determining a request for the withdrawal of a Licence, the DFSA may require additional procedures or information as appropriate including evidence that the Authorised Market Institution has ceased to carry on Financial Services.

3. Detailed plans should be submitted where there may be an extensive period of wind-down. It may not be appropriate for an Authorised Market Institution to immediately request a withdrawal of its Licence in all circumstances, although it may wish to consider reducing the scope of its Licence during this period. Authorised Market Institutions should discuss these arrangements with the DFSA.
4. The DFSA may refuse a request for the withdrawal of a Licence where it appears that users and customers may be adversely affected.
5. The DFSA may also refuse a request for the withdrawal of a Licence where:
 - a. the Authorised Market Institution has failed to settle its debts to the DFSA; or
 - b. it is in the interests of a current or pending investigation by the DFSA, or by another regulatory body or Financial Services Regulator.
6. Under Article 63 where the DFSA grants a request for the withdrawal of a Licence, the DFSA may continue to exercise any power under the Regulatory Law, the Markets Law or Rules in relation to an Authorised Market Institution for two years from the date on which the Licence was withdrawn.

5.3 Withdrawal of a licence on the DFSA's initiative

Guidance

In section 5.2 above, an application to withdraw a Licence will be at the Authorised Market Institution's request. Under Article 51, the DFSA may act on its own initiative to withdraw an Authorised Market Institution's Licence in cases when the Authorised Market Institution no longer has authority to carry on any Financial Service, is no longer meeting the conditions of its Licence or has failed to remove a Controller in the circumstances described in Article 64.

6 CONTROLLERS

6.1 Application

6.1.1 This chapter applies to:

- (a) an Authorised Market Institution; or
- (b) a Person who is, or is proposing to become, a Controller.

6.1.2 (1) A Controller is a Person who, either alone or with any Associate:

- (a) holds 10% or more of an Authorised Market Institution's shares;

- (c) in relation to an Authorised Market Institution or a Holding Company of an Authorised Market Institution without capital interests:
 - (i) conferring any right to share in the profits, or liability to contribute to the losses, of the Authorised Market Institution or a Holding Company of an Authorised Market Institution; or
 - (ii) giving rise to any obligation to contribute to the debt or expenses of an Authorised Market Institution Firm or a Holding Company of an Authorised Market Institution in the event of a winding up of the Authorised Market Institution or a Holding Company of the Authorised Market Institution.

6.2 Applications and notifications concerning a change in control

Guidance

1. In considering an application for approval, or a notification, of a change in control, the DFSA must be satisfied that an Authorised Market Institution continues to satisfy the Licensing Requirements and remains fit and proper in light of any changes in control.
2. Where the DFSA deems a Controller to be unacceptable and the Authorised Market Institution fails to ensure the Controller is removed or take other specified action to the DFSA's satisfaction, the DFSA may withdraw the Authorised Market Institution's Licence under Article 64.

6.2.1 A Person must not act as a Controller of an Authorised Market Institution unless it, or the Authorised Market Institution, has:

- (a) obtained prior approval in accordance with Rule 6.2.3(2); or
- (b) made a prior notification in accordance with Rule 6.2.3(3) or Rule 6.2.5(2), as may be applicable.

6.2.2 An Authorised Market Institution must take reasonable steps to monitor changes or proposed changes concerning:

- (a) its Controllers;
- (b) the level of control of existing Controllers; and
- (c) significant changes in the circumstances of existing Controllers which might reasonably be considered to affect the fitness and propriety of the Authorised Market Institution.

Guidance

1. Steps taken by an Authorised Market Institution to comply with Rule 6.2.2 must have regard to the approval and notification requirements set out in this chapter.
2. Reasonable steps in Rule 6.2.2 should include, but are not limited to, the monitoring of any relevant regulatory disclosures, press reports, public announcements, share registers and entitlements to vote, or the control of voting rights, at general meetings.

6.2.3 (1) Where the Authorised Market Institution is incorporated under DIFC law and a Person proposes to become a Controller or, in respect of an existing Controller, the level of control changes in regard to the kind of shareholding and influence set out in Rule 6.1.2(1), as a result of the events described in (2) or (3) below, the Authorised Market Institution must submit a notification or application to the DFSA as applicable.

- (2) The events mentioned in (1) which trigger a written application for prior approval are as follows:
 - (a) a Person becomes a Controller;
 - (b) when a holding is increased from below 10% to 10% or more;

- (c) when a holding is increased from below 30% to 30% or more;
 - (d) when a holding is increased from below 50% to 50% or more; or
 - (e) when any significant management influence as identified under Rule 6.1.2(1)(c) or (d), occurs which has not previously been disclosed to the DFSA.
- (3) The event mentioned in (1) which triggers a written notification is when a holding is decreased from more than 50% to 50% or less.
- (4) An application for prior approval or notification must be submitted to the DFSA using the appropriate form in AFN.
- 6.2.4**
- (1) An Authorised Market Institution must submit the notification or application required in Rule 6.2.3(1) not less than 28 days in advance of a proposed change or, where this is not reasonably possible, immediately on becoming aware of a proposed or actual change in control.
 - (2) Where an Authorised Market Institution is not reasonably able to comply with (1), the Person identified in Rule 6.1.1(b) must submit the required notification or application for approval.
 - (3) In the event of (2), an Authorised Market Institution must notify the DFSA in writing of the relevant circumstances and must also, at the same time, notify the Person in (2) of their obligations under this chapter.
- 6.2.5**
- (1) Where the Authorised Market Institution is incorporated other than under DIFC law and a Person proposes to become a Controller or, in respect of an existing Controller, the level of control changes in regard to the kind of shareholding and influence set out in Rule 6.1.2(1), as a result of the events described in (2) or (3) below, the Authorised Market Institution must submit a notification to the DFSA.
 - (2) The events mentioned in (1) which trigger a notification are as follows:
 - (a) a Person becomes a Controller;
 - (b) when a holding is increased from below 10% to 10% or more;
 - (c) when a holding is increased from below 30% to 30% or more;
 - (d) when a holding is increased from below 50% to 50% or more;
 - (e) when a holding is decreased from more than 50% to 50% or less; or
 - (f) when any significant management influence as identified under Rule 6.1.2(1)(c) or (d), occurs which has not previously been disclosed to the DFSA.
 - (3) A notification must be submitted to the DFSA using the appropriate form in AFN.

- 6.2.6** (1) An Authorised Market Institution must submit the notification required in Rule 6.2.5(1) not less than 28 days in advance of a proposed change or, where this is not reasonably possible, immediately on becoming aware of a proposed or actual change in control.
- (2) Where an Authorised Market Institution is not reasonably able to comply with (1), the Person identified in Rule 6.1.1(b) must submit the required notification.
- (3) In the event of (2), an Authorised Market Institution must notify the DFSA in writing of the relevant circumstances and must also, at the same time, notify the Person in (2) of his obligations under this chapter.

Guidance

1. In determining an application for approval made in accordance with Rule 6.2.3 the DFSA will consider all relevant information.
2. The DFSA will endeavour to determine applications made in accordance with Rule 6.2.3 within 28 days of receipt of all the required information being submitted, or such shorter time as may be agreed in exceptional circumstances.
3. The DFSA will only respond to a notification made in accordance with Rules 6.2.3 or 6.2.5 if it requires further information in light of the changes referred to in the notification.
4. Rules 6.2.3 or 6.2.5 also applies in certain circumstances where a change in control has occurred, without a Controller having taking any action. This may arise, for example, after a capital re-organisation.

6.3 Annual reporting of controllers

6.3.1 An Authorised Market Institution must submit to the DFSA an annual report on its Controllers within four months of its financial year end.

6.3.2 The Authorised Market Institution's annual report on its Controllers must include:

- (a) the name and address of each Controller;
- (b) the current holding of each Controller (expressed as a percentage of issued capital); and
- (c) where a Person is a Controller by virtue of the operation of Rule 6.1.2(c) or (d), the circumstances that cause it to be such a Controller.

Guidance

An Authorised Market Institution may satisfy the requirements of Rule 6.3.2 by submitting a corporate structure diagram along with the relevant information.

7 LICENSING REQUIREMENTS

7.1 Application

7.1.1 This chapter applies to an Authorised Market Institution and an applicant for a Licence to be an Authorised Market Institution.

7.2 Licensing requirements

Guidance

This section sets out the Licensing Requirements which an Authorised Market Institution must meet in order to be licensed and thereafter.

- 7.2.1**
- (1) An Authorised Market Institution must be able to satisfy the Licensing Requirements to the satisfaction of the DFSA at the time a Licence is granted and at all times thereafter.

- (s) compliance with listing rules.

Fit and proper - constitution, regulation and governance

- 7.2.2** (1) An Authorised Market Institution must:
- (a) be fit and proper;
 - (b) be appropriately constituted;
 - (c) have taken appropriate measures to:
 - (i) satisfy the Licensing Requirements; and
 - (ii) perform its Regulatory Functions;
 - (d) have a corporate governance framework appropriate to the nature, scale and complexity of its business and structure, which are adequate to promote the sound and prudent management and oversight of the Authorised Market Institution's business and to protect the interests of its stakeholders; and
 - (e) have a remuneration structure and strategies which are well aligned with the long term interests of the Authorised Market Institution, and appropriate to the nature, scale and complexity of its business.
- (2) In particular, the Governing Body of an Authorised Market Institution must:
- (a) demonstrate integrity, competence and commitment to satisfying its obligations under the Licensing Requirements;
 - (b) assign Key Individuals with appropriate levels of experience, knowledge and qualifications to oversee the Regulatory Functions;
 - (c) appoint a Key Individual who is ordinarily resident in the United Arab Emirates as a Money Laundering Reporting Officer;
 - (d) have independent directors constituting at least one-half of the total number of directors in the Governing Body and ensure that these independent directors are provided with direct access to:
 - (i) Key Individuals when required; and

- (ii) all relevant information concerning the satisfaction of Licensing Requirements and the performance of Regulatory Functions; and
 - (e) ensure that Key Individuals have unfettered, direct access to the Governing Body.
- (3) For the purposes of this Rule and Article 23(2)(f)(ii) of the Regulatory Law, Regulatory Functions are those functions of an Authorised Market Institution which contribute directly to the satisfaction by the Authorised Market Institution of a Licensing Requirement.
- (4) An Exchange maintaining an Official List of Securities must ensure the function is properly and independently operated.

Guidance

Section 2.2 of the RPP Sourcebook sets out matters which the DFSA takes into consideration when making an assessment of the kind under Rule 7.2.2.

Proper markets

- 7.2.3**
- (1) An Exchange must have systems, policies and procedures which ensure that only:
 - (a) Investments in which there is a proper market; or
 - (b) those Securities which are admitted to its Official List of Securities;are admitted to trading.
 - (2) For a proper market to exist:
 - (a) arrangements must be in place for relevant market information to be made available to Persons engaged in dealing on an equitable basis;
 - (b) Investments must serve an economic purpose;
 - (c) there must be a sufficient range and number of investors willing and able to generate adequate supply and demand in the Investments;
 - (d) where appropriate, there must be a sufficiently liquid underlying cash market;
 - (e) where appropriate, there must be capacity to make and take delivery of the Investments; and
 - (f) the Business Rules and listing rules of an Exchange must allow for the discontinuance or suspension of trading in Investments when disclosure obligations have not been complied with and in other appropriate circumstances.

- (3) Securities in which there is a proper market and which are listed in a jurisdiction acceptable to the DFSA meet the requirements in this Rule relating to proper markets.

Guidance

1. Before admitting Securities listed in jurisdictions elsewhere to trading, the Authorised Market Institution should consider the following factors to determine whether a proper market exists in that Investment:
 - a. any restrictions whether legal or physical on Persons who may hold the Investment;
 - b. the liquidity or anticipated liquidity of the Securities;
 - c. the number of persons already holding the Securities or interested in dealing in the Securities;
 - d. whether there is sufficient relevant information available to allow market participants to make an informed judgement on the value of assets and underlying assets;
 - e. how the information required by market participants to make an informed assessment of the value of the Securities can be accessed; and
 - f. whether there are adequate settlement and delivery procedures in relation to the Securities.
2. In determining whether Inside Information is disclosed to allow investors to make an informed judgement of the value of the Securities, the DFSA may consider the extent to which persons can obtain information about Securities through acceptable channels of communication such as through third party information vendors. Where there is no alternative way to obtain information about Security, the exchange will need to provide those services.

Financial resources

- 7.2.4** (1) An Authorised Market Institution must have and maintain at all times, in addition to the minimum financial resource requirement in (2), financial resources of a type acceptable to the DFSA. These financial resources must be adequate in relation to the nature, size and complexity of its business to ensure that there is no significant risk that liabilities cannot be met as they fall due.
- (2) The minimum financial resource requirement for an Authorised Market Institution is:
- (a) an amount equal to one half of the estimated gross operating costs of the Authorised Market Institution for the next twelve-month period; or
 - (b) such other base capital amount as may be set by the DFSA under (4).
- (3) When calculating its twelve-month gross operation costs, an Authorised Market Institution must also include any penalty payments for which it has become liable as part of any outsourcing or other arrangements

which are integral to its being able to function as an Authorised Market Institution.

- (4) The DFSA may prescribe a base capital amount for an Authorised Market Institution and will determine such amount by reference to other international jurisdictions deemed by the DFSA to be comparable.
- (5) An Authorised Market Institution must have systems and controls to enable it to determine and monitor whether its financial resources are sufficient for the purposes of the additional financial resource requirement in (1) and the minimum financial resource requirement in (2).
- (6) For the purposes of (5), the systems and controls of an Authorised Market Institution address the following factors, with any others that are appropriate to its operations model:
 - (a) the scale, nature, activities and risks of the operation;
 - (b) the operational, counterparty, market and settlement risks to which the body is exposed;
 - (c) the amount, composition and legal position of its available financial resources; and
 - (d) its ability to access additional financial resources if required.

Guidance

1. The financial resource requirement is intended to ensure that an Authorised Market Institution not only has sufficient financial resources to meet its liabilities as they fall due, but also to allow, if circumstances require, for the orderly wind-down of the Authorised Market Institution's business, while still allowing the institution to meet the conditions of its Licence.
2. The systems and controls should be such as to enable an assessment of the financial resources required to be conducted periodically or after any significant change or event, whether internal or external, to the Authorised Market Institution, which may require re-assessment. This regular re-assessment is necessary to satisfy the DFSA that the Licensing Requirements are being satisfied on an ongoing basis and the DFSA will often request to see the conclusions.
3. In determining whether to set a base capital amount the DFSA will take into account the risks that the Authorised Market Institution poses to the DIFC market and products which it intends, or is, trading, clearing or settling.

2. Key aspects of the corporate governance framework of an Authorised Market Institution encompasses a range of matters. These include the composition of its Governing Body, any committees of the Governing Body, the senior management and the Persons Undertaking Key Control Functions, the reporting lines between the Governing Body, senior management and the Persons Undertaking Key Control Functions and any key policies and practices relating to the internal governance of the firm, such as codes of ethics or its remuneration practices. Significant changes relating to such arrangements and policies need to be notified to the DFSA pursuant to Rule 10.5.3(2)(b) before making any changes.
3. Notification relating to proposed changes to corporate governance and remuneration referred to in Rule 10.5.3(2)(b) must be given sufficiently in advance of effecting the proposed change. If there are any concerns that an Authorised Market Institution may not be able to meet the applicable requirements relating to corporate governance and remuneration set out in GEN Rules 5.3.30 and 5.3.31 as a result of a proposed change, the DFSA may require the Authorised Market Institution to address those concerns effectively before implementing such a change.

11 ANTI MONEY LAUNDERING RULES FOR AUTHORISED MARKET INSTITUTIONS

11.1 U.A.E. federal law

Guidance

1. In connection with Article 72 of the Regulatory Law 2004, this chapter relates to regulatory requirements imposed by the DFSA, as opposed to requirements imposed by applicable criminal laws, that is relevant provisions of the 'Federal Law No 4. of 2002 - Criminalisation of Money Laundering of the U.A.E.' (U.A.E. Law No. 4), the 'Federal Law No. 1 of 2004' regarding anti terrorism, the U.A.E. Penal Code and any other federal law of the U.A.E as applicable in the DIFC in relation to anti money laundering compliance. The Rules of the chapter should therefore not be relied upon to interpret or determine the application of the money laundering laws of the U.A.E.
2. By virtue of Article 3(1) of 'Federal Law No. 8 of 2004', the U.A.E. Law No. 4 of 2002 applies to all operations in the DIFC. In recognition of this, Article 70(3) of the Regulatory Law requires an Authorised Market Institution to comply with the U.A.E. Law No. 4. Pursuant to Article 70(3), an Authorised Market Institution is required to comply with the U.A.E. Law No. 4. The defined term of 'Money Laundering' in these Rules follows that in the U.A.E. Law No.4. This includes the closely related subject of 'terrorist financing'.
2. Accordingly, where the DFSA uses 'money laundering' either as a defined or undefined term, Authorised Market Institutions are required to include 'terrorist financing' in all considerations with regard to their policies, procedures, systems and controls.

11.4 General requirements

 5. Under Article 3 of the U.A.E. Law No.4, an Authorised Market Institution may be criminally liable for the offence of Money Laundering if such an activity is intentionally committed in its names or for its accounts.
- 11.4.2** (1) An Authorised Market Institution must include in its Business Rules an anti money laundering regime applicable to its Members.
- (2) The anti money laundering regime referred to in (1) must include at least rules in relation to:

- (a) material breach of its anti money laundering regime by a Member;
 - (b) circumstances in which a Member will not or cannot rectify a breach of its anti money laundering regime; and
 - (c) conduct which the Authorised Market Institution knows or ought reasonably to know amounts to terrorist financing.

Guidance

1. In accordance with the Regulatory Law, the DFSA is responsible for monitoring anti money laundering compliance of Authorised Market Institutions. An Authorised Market Institution is responsible for anti money laundering compliance of all its Members with its anti money laundering regime. Authorised Firms must also comply with the DFSA's AML module.
2. An Authorised Market Institution must operate appropriate measures to reduce Market Misconduct on the Authorised Market Institution's facilities. As part of this requirement, an Authorised Market Institution shall include an anti money laundering regime in their Business Rules.

- (c) make a record of their assessment in (a) and the action taken in (b).

11.6.5 (1) The report provided under Rule 11.6.3 and the records of the assessment and actions pursuant to Rule 11.6.4 must be documented in writing.

- (2) A complete copy of the Report and records of the assessment and actions must be provided to the DFSA promptly.

11.7 Member identification requirements

Duties and responsibilities

- 11.7.1** (1) Subject to the exception under Rule 11.7.4, an Authorised Market Institution must establish and verify the identity of any Member to whom the Authorised Market Institution allows access or proposes to allow access to its facilities.
- (2) In establishing and verifying a Member's true identity, an Authorised Market Institution must obtain sufficient and satisfactory evidence having considered:
- (a) its risk assessment under Rule 11.10.1 in respect of the Member; and
 - (b) the relevant provisions of App2 and App3.
- (3) An Authorised Market Institution must update as appropriate any Member identification policies, procedures, systems and controls.

Guidance

- 1. An Authorised Market Institution should adopt a risk-based approach for the Member identification and verification process. Depending on the outcome of the Authorised Market Institution's money laundering risk assessment of its Member, it should decide to what level of detail the Member identification and verification process will need to be performed.
 - 2. The requirements for Members on how to identify and verify their clients should be set out in the Authorised Market Institution's anti money laundering regime.
- 11.7.2** The obligations under Rules 11.7.1 must be fulfilled before the Authorised Market Institution effects any transaction on behalf of the Member.
- 11.7.3** (1) An Authorised Market Institution must :
- (a) ensure that the information and documentation concerning a Member's identity remains accurate and up-to-date ; and
 - (b) conduct ongoing due diligence on its business relationship with, and ongoing scrutiny of transactions undertaken by, a Member throughout the course of the relationship.
- (2) If at any time an Authorised Market Institution becomes aware that it lacks sufficient information or documentation concerning a Member's identification, or develops a concern about the accuracy of its current information or documentation, it must promptly obtain appropriate material to verify the Member's identity.

Guidance

1. An Authorised Market Institution should undertake a periodic review to ensure that Member identity documentation is accurate and up-to-date.
2. An Authorised Market Institution should undertake a review particularly when there is a material change in the nature or ownership of the Member.
3. Additional elements concerning the Member identification and ongoing due diligence of the business relationship with the Member and scrutiny of transactions which an Authorised Market Institution should take into account are set out as further Guidance in App2.
4. The degree of the ongoing due diligence to be undertaken will depend on the risk assessment carried out pursuant to section 11.10.

Exception to member identification requirements

- 11.7.4** (1) Subject to Rule 11.7.5, an Authorised Market Institution is not required to establish the identity of a Member pursuant to Rule 11.7.1 if the Member is one of the following:
- (a) an Authorised Firm; or
 - (b) a Recognised Member whose identity has been verified in a manner consistent with these Rules or equivalent international standards applying in FATF Countries, provided that:
 - (i) no exception from identification obligations has been applied in the original identification process; and
 - (ii) a written statement is received from the introducing exchange or clearing house confirming that the Recognised Member has been identified with the relevant standards under (b)(i); any identification evidence can be accessed by the Authorised Market Institution without delay; and the identification evidence is kept for at least six years or any other period acceptable to the DFSA.
- (2) If an Authorised Market Institution is not satisfied that the Recognised Member has been identified in a manner consistent with these Rules, the Authorised Market Institution must perform the verification process itself.

Guidance

The DFSA would expect an Authorised Market Institution to take reasonable steps to determine whether or not a Member falls within the exceptions under this Rule, and to keep records of the basis on which a Member's identity was not required to be verified.

- 11.7.5** (1) Rule 11.7.4 does not apply where the Authorised Market Institution:
- (a) knows or suspects; or
 - (b) has reasonable grounds to know or suspect;
- that a Member is engaged in Money Laundering.
- (2) The Authorised Market Institution will be taken to know or suspect or to have reasonable grounds to know or suspect, if:
- (a) any Employee handling the transaction or potential transaction; or
 - (b) anyone managerially responsible for it;
- knows or suspects or has reasonable grounds to know or suspect that a Member is engaged in Money Laundering.

Documentation and records

- 11.7.6** (1) All relevant information, correspondence and documentation used by an Authorised Market Institution:
- (a) to verify a Member's identity pursuant to Rules 11.7.1; and
 - (b) in respect of the ongoing due diligence and scrutiny required under Rule 11.7.3,
- must be kept for at least six years from the date on which the business relationship with a Member has ended.
- (2) If the date on which the business relationship with a Member has ended remains unclear, it may be taken to have ended on the date of the completion of the last transaction.

Guidance

The records maintained by an Authorised Market Institution should be kept in such a manner that:

- a. the DFSA or another competent third party is able to assess the Authorised Market Institution's compliance with legislation applicable in the DIFC;
- b. any transaction which was processed by or through the Authorised Market Institution on behalf of a Member can be reconstructed;
- c. any Member can be identified;
- d. all internal and external Suspicious Transaction Reports can be identified; and
- e. the Authorised Market Institution can satisfy, within an appropriate time, any regulatory enquiry or court order to disclose information.

- 11.7.7** All relevant details of any transaction carried out by the Authorised Market Institution with or for a Member must be kept for at least six years from the date on which the transaction was completed.

- 11.7.8** (1) Where Member identification records are kept by the Authorised Market Institution or other Persons outside the U.A.E., an Authorised Market Institution must take reasonable steps to ensure that the records are held in a manner consistent with these Rules.
- (2) An Authorised Market Institution must verify if there are secrecy or data protection legislation that would restrict access without delay to such data by the Authorised Market Institution, the DFSA or the law enforcement agencies of the U.A.E. Where such legislation exists, the Authorised Market Institution must obtain without delay certified copies of the relevant identification evidence and keep these copies in a jurisdiction which allows access by all those Persons.

11.7.9 An Authorised Market Institution must not:

- (a) establish a correspondent banking relationship with a Shell Bank;
- (b) establish or keep anonymous accounts or accounts in false names; or
- (c) maintain a nominee account which is held in the name of one Person, but controlled by or held for the benefit of another Person whose identity has not been disclosed to the Authorised Market Institution.

Guidance

An Authorised Market Institution should also have arrangements to guard against establishing a business relationship with business partners who permit their accounts to be used by Shell Banks.

11.8 Internal and external reporting requirements

- 11.8.1** (1) An Authorised Market Institution must have appropriate arrangements to ensure that whenever any Employee, acting in the ordinary course of his employment, either:
- (a) knows or suspects; or
 - (b) has reasonable grounds for knowing or suspecting;
- that a Person is engaged in Money Laundering, that Employee makes an internal Suspicious Transaction Report to the Authorised Market Institution's MLRO.
- (2) An Authorised Market Institution must have policies and procedures to ensure that disciplinary action can be taken against any Employee who fails to make such a report.

Guidance

The requirement for Employees to make an internal Suspicious Transaction Report should include situations when no business relationship was developed because the circumstances were suspicious.

11.8.2 If an Authorised Market Institution's MLRO receives an internal Suspicious Transaction Report he must without delay:

- (a) investigate the circumstances in relation to which the report was made;
- (b) determine whether in accordance with U.A.E Law No.4 of 2002 a corresponding external Suspicious Transaction Report must be made to the AMLSCU;
- (c) if required, make such an external report to the AMLSCU; and
- (d) provide a copy of such an external report to the DFSA at the time of provision under U.A.E Law No.4 of 2002.

Guidance

1. An Authorised Market Institution may allow its Employees to consult with their line managers before sending a report to the MLRO. The DFSA would expect that such consultation does not prevent making a report whenever an Employee has stated that he has knowledge, suspicion or reasonable grounds for knowing or suspecting that a transaction may involve money laundering.
2. Authorised Market Institutions are reminded that the failure to report suspicions of Money Laundering may constitute a criminal offence that is punishable under the laws of the U.A.E.
3. External Suspicious Transaction Reports under U.A.E. Law No.4 should be faxed to the AMLSCU and a copy faxed to the DFSA. The dedicated fax numbers and the template for making Suspicious Transaction Reports are available on the DFSA website.

11.8.3 The MLRO must document:

- (a) the steps taken to investigate the circumstances in relation to which an internal Suspicious Transaction Report is made; and
- (b) where no external Suspicious Transaction Report is made to the AMLSCU the reasons why no such report was made.

11.8.4 All relevant details of any internal and external Suspicious Transaction Report pursuant to Rules 11.8.1 and 11.8.2 must be kept for at least six years from the date on which the report was made.

11.8.5 An Authorised Market Institution must ensure that if the MLRO decides to make an external Suspicious Transaction Report in accordance with Rule 11.8.2, his decision is made independently and is not subject to the consent or approval of any other Person.

11.8.6 Authorised Market Institutions must not carry out transactions which they know or suspect or have reasonable grounds for knowing or suspecting to be related to Money Laundering until they have informed the AMLSCU and the DFSA pursuant to Rule 11.8.2.

Guidance

1. If the Authorised Market Institution has reported a suspicion to the AMLSCU, the AMLSCU may instruct an Authorised Market Institution on how to proceed with the transaction. If a Person expresses his wish to move the funds before an Authorised

Market Institution receives instruction from the AMLSCU on how to proceed, the Authorised Market Institution should immediately contact the AMLSCU for further instructions.

2. Pursuant to Article 4 of the U.A.E. Law No.4:
 - a. the Central Bank of the U.A.E. may order the freezing of suspected Property for a maximum of seven days;
 - b. the public prosecutor office of the U.A.E. may order seizure of suspected Property, proceeds or instrumentalities; or
 - c. a competent court of the U.A.E. may order provisional attachment for undetermined periods on any Property, proceeds or instrumentalities, if they have resulted from, or are associated with, a Money Laundering offence.
3. Further, and pursuant to Article 4 of the U.A.E. Law No. 4, the Attorney General of the U.A.E. has the exclusive authority to initiate criminal action against a perpetrator of offences set out in the law.

Tipping-off

4. Authorised Market Institutions are reminded that in accordance with Article 16 of the U.A.E. Law No.4 of 2002, Authorised Market Institutions or any of their Employees must not tip-off any Person, that is, inform any Person that his transaction is being scrutinised for possible involvement in suspicious Money Laundering operations, or that any other competent authority is investigating his possible involvement in suspicious Money Laundering operations.

11.9 Government, regulatory and international findings

11.9.1 An Authorised Market Institution must establish and maintain systems and controls to obtain and make appropriate use of any findings, recommendations, guidance, directives, resolutions, sanctions, notices or other conclusions issued by:

- (a) the government of the U.A.E. or any government departments in the U.A.E.;
- (b) the Central Bank of the U.A.E. or the AMLSCU;
- (c) the Financial Action Task Force (FATF); and
- (d) the DFSA;

concerning arrangements for preventing money laundering or terrorist financing in a particular country or jurisdiction, including any assessment of material deficiency against relevant countries in adopting international standards.

Guidance

1. The systems and controls mentioned in Rule 11.9.1 should be established and maintained by an Authorised Market Institution taking into account its risk assessment pursuant to section 11.10. In relation to the term “make appropriate use” in Rule 11.9.1 this may mean that an Authorised Market Institution cannot undertake a transaction for or on behalf of a Person or that it may need to undertake further due diligence in respect of a Person.

2. When an Authorised Market Institution makes a decision about its anti money laundering policies, procedures, systems and controls, it should take into account any findings of inadequacy, for example, any notice or guidance issued by the FATF concerning the approach to money laundering of individual countries or jurisdictions.
3. An Authorised Market Institution should examine and pay special attention to any transactions or business relations with Persons located in such countries or jurisdictions.
4. An Authorised Market Institution considering transactions or business relationships with Persons located in countries or jurisdictions that have been identified as deficient, or against which the U.A.E. or the DFSA have outstanding advisories, should be aware of the background against which the assessments or the specific recommendations have been made.
5. The Authorised Market Institution's MLRO is not obliged to report all transactions from these countries or jurisdictions to the AMLSCU and the DFSA if they do not qualify as suspicious pursuant to U.A.E. Law No.4. See section 11.8 on internal and external reporting requirements.
6. Transactions with counterparties located in countries or jurisdictions which have been relieved from special scrutiny, for example, taken off the sources mentioned in this Guidance, may nevertheless require attention which is higher than normal.
7. In order to assist Authorised Market Institutions, the DFSA will, from time to time, publish U.A.E. national, FATF or other findings, guidance, directives or sanctions. However, the DFSA expects an Authorised Market Institution to take its own steps in acquiring relevant information from various available sources. For example, an Authorised Market Institution may obtain relevant information from the consolidated list of financial sanctions in the European Union Office, HM Treasury (United Kingdom) lists, and from the Office of Foreign Assets Control (OFAC) of the United States Department of Treasury.
8. Authorised Market Institutions should take note of GEN Rule 5.3.30 which requires such institutions to obtain and make appropriate use of the United Nations Security Council's relevant resolutions and sanctions. Such resolutions and sanctions may, for example, relate to money laundering and terrorist financing and financing of weapons of mass destruction.

11.9.2 An Authorised Market Institution must establish and maintain systems and controls to obtain and make appropriate use of any findings, recommendations, guidance, directives resolutions, sanctions, notices or other conclusions issued by:

- (a) the government of the U.A.E. or any government departments in the U.A.E.;
- (b) the Central Bank of the U.A.E. or the AMLSCU;
- (c) U.A.E. enforcement agencies; and
- (d) the DFSA;

concerning names of Persons, groups, organisations or entities or any other body where suspicion of money laundering or terrorist financing exists.

Guidance

1. The systems and controls mentioned in Rule 11.9.2 should be established and maintained by an Authorised Market Institution taking into account its risk assessment pursuant to section 11.10. In relation to the term “make appropriate use” in Rule 11.9.2 this may mean that an Authorised Market Institution cannot undertake a transaction for or on behalf of a Person or that it may need to undertake further due diligence in respect of a Person.
2. An Authorised Market Institution may obtain and appropriately use available national and international information, for example, suspect lists or databases from credible public or private sources, with regard to money laundering and terrorist financing. The DFSA encourages Authorised Market Institutions to perform checks against their Member databases and records for any names appearing on such lists and databases. In addition, the Authorised Market Institution may refer to the sources mentioned in Guidance under Rule 11.9.1.
3. Authorised Market Institutions should take note of GEN Rule 5.3.30 which requires such institutions to obtain and make appropriate use of the United Nations Security Council’s relevant resolutions and sanctions. Such resolutions and sanctions may, for example, relate to money laundering and terrorist financing and financing of weapons of mass destruction.

11.10 Money laundering risks**Risk assessment**

- 11.10.1**
- (1) The anti money laundering policies, procedures, systems and controls of an Authorised Market Institution must adequately address the money laundering risks which take into account any vulnerabilities of its products, services and Members.
 - (2) In assessing the risks in relation to money laundering, an Authorised Market Institution must have regard to the relevant provisions of App2 and App3.
 - (3) An Authorised Market Institution must assess its risks in relation to money laundering and perform enhanced due diligence investigations for higher risk products, services and Members.
 - (4) An Authorised Market Institution must be aware of any money laundering risks that may arise from new or developing technologies that might favour anonymity and take measures to prevent their use for the purpose of money laundering.

Risks regarding corruption and politically exposed persons

- 11.10.2**
- (1) An Authorised Market Institution must have systems and controls to determine whether a Member is a Politically Exposed Person.
 - (2) When an Authorised Market Institution has a Member relationship with a Politically Exposed Person, it must have specific arrangements to address the risks associated with corruption and Politically Exposed Persons.

Guidance

Guidance on how an Authorised Market Institution may address this risk is set out in App3 section A3.2.

Suspicious transactions and transaction monitoring

11.10.3 An Authorised Market Institution must establish and maintain policies, procedures, systems and controls in order to monitor and detect suspicious transactions.

Guidance

1. An Authorised Market Institution should apply an intensified and ongoing monitoring programme over higher risk transactions and accounts.
2. Various risk aspects about transaction monitoring and about the detection of suspicious transactions, which the Authorised Market Institution should take into account, are set out as further Guidance in App3 section A3.3.
3. An Authorised Market Institution may have transaction monitoring arrangements which are less sophisticated than those for clearing houses.

11.11 Transfer of funds

- 11.11.1** (1) Where an Authorised Market Institution makes a payment on behalf of a Person to a financial institution using an electronic payment and message system, it must include the Person's name, address and either an account number or an unique reference number in the payment instruction.
- (2) The requirement in (1) does not apply to an Authorised Market Institution which transfers funds to a financial institution where both the originator and the beneficiary are financial institutions acting on their own behalf.

Guidance

1. 'FATF Special Recommendation Number 7' seeks to ensure that national or international electronic payment and message systems, including fund or wire transfer systems such as SWIFT, are not misused as a means to break the money laundering audit trail. Therefore, the information about a Person as the originator of the fund transfer should remain with the payment instruction through the payment chain.
2. An Authorised Market Institution should monitor for and conduct enhanced scrutiny of suspicious activities including incoming fund transfers that do not contain complete originator information, including name, address and account number or unique reference number in accordance with App3.

11.12 Awareness and training

11.12.1 An Authorised Market Institution must have arrangements to provide periodic information and relevant training to all Employees to ensure that they are aware of:

- (a) the identity and responsibilities of the Authorised Market Institution's MLRO;

- (f) money laundering risks, trends and techniques;
- (g) the types of activity that may constitute suspicious activity in the context of the business in which an Employee is engaged that may warrant an internal Suspicious Transaction Report pursuant to Rule 11.8.1;
- (h) the Authorised Market Institution's arrangements regarding the making of an internal Suspicious Transaction Report pursuant to Rule 11.8.2;
- (i) requirements relating to Member identification and ongoing due diligence and scrutiny pursuant to the Rules in section 11.7; and
- (j) the use of findings, recommendations, guidance, directives, resolutions, sanctions, notices or other conclusions described in section 11.9 and GEN Rule 5.3.30.

11.12.2 Information described under Rule 11.12.1 must be brought to the attention of new Employees and must remain available to all Employees.

11.12.3 (1) An Authorised Market Institution must have arrangements to ensure that:

- (a) its anti money laundering training is up-to-date with money laundering trends and techniques;
- (b) its anti money laundering training is appropriately tailored to the Authorised Market Institution's different activities, services, Members and indicates any different levels of money laundering risk and vulnerabilities; and
- (c) all Employees receive anti money laundering training.

- (2) An Authorised Market Institution must conduct anti money laundering training sessions with sufficient frequency to ensure that within 12 months it is provided to all Employees.
- 11.12.4** (1) All relevant details of the Authorised Market Institution's anti money laundering training must be recorded, including:
- (a) dates when the training was given;
 - (b) the nature of the training, and
 - (c) the names of the Employees who received the training.
- (2) These records must be kept for at least six years from the date on which the training was given.

1. Pursuant to Rule 11.7.1, an Authorised Market Institution is required to be satisfied that a prospective Member is who he claims to be and obtain evidence to verify this.
2. It is important for an Authorised Market Institution to obtain such information because this process should allow for the risk of being exploited for the purpose of money laundering to be reduced to a minimum.
3. Any unusual facts of which an Authorised Market Institution becomes aware during the identification process may be an indication of money laundering and should prompt the Authorised Market Institution to request supplementary information and evidence.

- p. Pursuant to Rules 11.7.4, identification evidence is not required for Members which are Authorised Market Institutions.
- q. However, the confirmation of the existence of such a relevant firm or institution under Guidance note 2.s. above and its regulatory status should be verified by the Authorised Market Institution prior to entering into a Member relationship. Regular professional and commercial checks and due diligence investigations should still be performed.
5. The DFSA will from time to time:
- a. review the Guidance under App2 in light of changing money laundering legislation issued by the U.A.E. Central Bank, money laundering trends and techniques and according to international standards, in order to keep the Guidance current; and

- c. The DFSA expects that an Authorised Market Institution will take these changes into account by amending, as appropriate, its policies, procedures, systems and controls including its anti money laundering regime for Members.
6. Sound Member identification arrangements have particular relevance to the safety and soundness of an Authorised Market Institution, in that:
 - a. they help to protect its reputation and the integrity of the DIFC by reducing the likelihood of Authorised Market Institutions becoming a vehicle for, or a victim of, financial crime and suffering consequential reputational damage; and
 - b. they constitute an essential part of sound risk management.
7. In accordance with Rule 11.7.1, an Authorised Market Institution should adopt a risk-based approach for the Member identification and verification process. Depending on the money laundering risk assessment regarding the Authorised Market Institution's Member, the Authorised Market Institution should decide to what level of detail the Member identification and verification process will need to be performed. See also Rules under section 11.10. The risk assessment regarding a Member should be recorded in the Member file.
8. The risk-based approach does not release an Authorised Market Institution from its overall obligation to identify fully and obtain evidence of Member identification to the DFSA's satisfaction.
9. An Authorised Market Institution is advised that in cases of doubt it should adopt a stricter rather than a moderate approach in its judgement concerning the risk level and the level of detail to which Member identification is performed and evidence obtained.

Guidance relating to Rule 11.7.3.

10. Pursuant to Rule 11.7.3, an Authorised Market Institution must ensure that the information and evidence concerning a Member's identity is accurate and up-to-date.
 - a. An Authorised Market Institution is expected to ensure that the information and the evidence obtained from a Member is valid and has not expired, for example, when obtaining copies of identification documentation such as a passport or trading licence.
 - b. The Member identification process does not end at the point of application. Following the start of the Member relationship, an Authorised Market Institution should ensure that all relevant evidence and information is kept up-to-date including, for example, the list of authorised signatories who can act on behalf of a corporate Member.
 - c. If a Member account is dormant or an Authorised Market Institution has had no contact with the Member within the previous twelve months, an Authorised Market Institution should take reasonable steps to verify whether available information, documentation and evidence concerning the Member is still valid and up-to-date.
 - d.
11. When conducting ongoing due diligence on the business relationship with, and scrutiny of transactions undertaken by, a Member, an Authorised Market Institution should:
 - a. ensure consistency of such transactions with its knowledge of the Member and the Member's purpose and risk profile; and
 - b. verify, where necessary, the source of funds.

APP3 MONEY LAUNDERING RISKS

A3.1 Risk assessment

Guidance relating to Rule 11.10.1

1. The securities sector on a global scale is characterised by its diversity, the ease with which trading can take place (through electronic trading for example) and the ability to perform transactions in markets with little regard to national borders. These characteristics, along with the sheer volume of transactions, also make the securities sector potentially vulnerable to the laundering of funds. The securities sector is to be understood in the broader sense and shall include all trading and related activities relating to Securities.
2. The illegal funds laundered through the securities sector may be generated by illegal activities both from outside and from within the sector. For illegal funds generated outside the sector, securities transactions or the creation of legal entities are used as the mechanism for concealing or obscuring the source of these funds. In the case of illegal activities carried out within the securities market itself, for example, embezzlement, insider trading, securities fraud, market manipulation, terrorist financing etc., the securities transactions or manipulations generate illegal funds that must then be laundered.
3. Funds in the form of cash are generally introduced into the financial system before entering the securities sector. Consequently, the securities sector is less at risk than the banking sector regarding the placement of laundered funds directly into the securities industry. However, the securities sector is especially vulnerable to the layering of laundered funds subsequent to the placement phase.
4. Generally, an Authorised Market Institution is expected to take a risk-based approach when assessing any business relationship or transaction with respect to its specific money laundering risk and the information and evidence that might be required or validated for this purpose. ‘Know Your Member’ procedures need to be established and managed according to the perceived money laundering risk.
5.
 - a. The Authorised Market Institution should take specific and adequate measures necessary to compensate for the higher risk of money laundering which might arise, for example from the following products, services or Members:
 - i. “Wash sales” or other fictitious trading schemes to transfer money or value through the clearing and settlement infrastructure;
 - ii. activities of employees that unwittingly are requested to take actions which further a Person’s money laundering scheme; including the activities of “rogue employees”;
 - iii. acceptance of orders and related funds from intermediaries or banks operating from jurisdictions that do not have effective systems in place to prevent the introduction of laundered funds into the investment firms and banks operating in those jurisdictions;
 - iv. non face-to-face business relationships or transactions, such as via mail, telephone or the Internet;
 - v. correspondent banking relationships, see also Rule 11.7.9;
 - vi. Members from higher-risk countries as may be found in sources mentioned in Guidance under Rule 11.9.1; and
 - vii. Politically Exposed Persons, see also Rule 11.10.2

- b. Pursuant to Rule 11.10.3, an Authorised Market Institution should apply an intensified monitoring of transactions and accounts in relation to these products, services and Members.
6. While an Authorised Market Institution should assess the money laundering risks posed by the products and services it offers and devise its products with due regard to those risks, a risk-based approach does not release the Authorised Market Institution from its overall obligation to comply with anti money laundering obligations.
 7. Money laundering risks are increased if a Person is able to hide behind corporate structures such as limited companies, offshore trusts, special purpose vehicles and nominee arrangements. When devising its internal procedures, an Authorised Market Institution should consider how its Members and operational systems impact upon the capacity of its staff to identify suspicious transactions.
 8. The geographical location of an Authorised Market Institution's Member may also affect the money laundering risk assessment. The DFSA recommends that where an Authorised Market Institution has Members located in countries:
 - a. without adequate anti money laundering strategies;
 - b. where cash is the normal medium of exchange;
 - c. which have a politically unstable regime with high levels of public or private sector corruption;
 - d. which are known to be drug producing or drug transit countries; or
 - e. which have been classified as countries with inadequacies in their anti money laundering regulations, see Rule 11.9.1;

it should consider which additional 'Know Your Member' and monitoring procedures might be necessary to compensate for the enhanced risks of money laundering. Such measures may encompass, for example, the following:

 - f. requiring additional documentary evidence;
 - g. taking supplementary measures to verify or certify the documents supplied; or
 - h. performing direct mailing of account opening documentation to a Member at an independently verified address.

A3.2 Risks regarding corruption and politically exposed persons

Guidance relating to Rule 11.10.2

1. Corruption, especially with the involvement of Politically Exposed Persons, may involve serious crimes and has become the subject of increasing global concern. The risk for an Authorised Market Institution can be reduced if the Authorised Market Institution conducts detailed 'Know Your Member' investigations at the beginning of a relationship with an Individual and on an ongoing basis where it knows, suspects, or is advised that, the business relationship involves a Politically Exposed Person. An Authorised Market Institution should develop and maintain enhanced scrutiny and monitoring practices to address this risk, see also App2.
2. Where a Member relationship is maintained with a Politically Exposed Person, detailed monitoring and due diligence procedures should include:

- a. analysis of any complex structures, for example involving trusts or multiple jurisdictions;
 - b. appropriate measures to establish the source of wealth;
 - c. development of a profile of expected activity for the business relationship in order to provide a basis for transaction and account monitoring;
 - d. senior management approval for the Member relationship; and
 - e. regular oversight of the relationship with a Politically Exposed Person by senior management.
3. An Authorised Market Institution is advised that Member relationships with family Members or close associates of Politically Exposed Persons involve similar risks to those with Politically Exposed Persons themselves.

A3.3 Suspicious transactions and transaction monitoring

Guidance relating to Rule 11.10.3

1.
 - a. The Rules in section 11.8 require a Suspicious Transaction Report to be made when there is knowledge or suspicion of money laundering. Suspicion is a personal and subjective assessment. Suspicion of money laundering requires a degree of satisfaction although this may not amount to belief, it should at least extend beyond mere speculation and should be based upon some foundation that money laundering has occurred or is about to occur.
 - b. A Member of staff who considers a transaction to be suspicious would not be expected to know the exact nature of the criminal offence or that the particular funds were definitely those arising from the crime.
 - c. The Rules in section 11.8 also make reference to 'reasonable grounds to suspect' which introduces an objective test rather than a subjective test of suspicion by assessing whether or not 'suspicion' was ignored in the way of:
 - i. wilful blindness;
 - ii. negligence, that is wilfully and recklessly failing to make the adequate enquiries; or
 - iii. failing to assess adequately the facts and information that are either presented or available.
2. Circumstances that might give rise to suspicion or reasonable grounds for suspicion may be:
 - a. transactions which have no apparent purpose and which make no obvious economic sense;
 - b. transactions requested by a Member without reasonable explanation, which are out of the ordinary range of services normally requested or are outside the experience of an Authorised Market Institution in relation to a particular Member or Person;
 - c. the size or pattern of transactions, without reasonable explanation, is out of line with any pattern that has previously emerged;
 - d. a Member or Person refuses to provide the information requested without reasonable explanation;

- e. a Member or Person who has just entered into a business relationship uses the relationship for a single transaction or for only a very short period of time;
- f. an extensive use of offshore accounts, companies or structures in circumstances where the Member's economic needs do not support such requirements;
- g. unnecessary routing of funds through third party accounts; or
- h. unusual transactions without an apparently profitable motive.
